

ONLINE PARENTING CLASSES

Referral List

Do not register for any of these online courses before speaking to Cari Rincker as the court must approve the class on a case-by-case basis. This list has available options which may be accepted in your case. Most courts in Illinois require at least 4 hours of parental education. Some of the below course offer 2 hour sessions, which will likely not be accepted by the court as a stand alone class. You are free to take these courses as add-ons or additional hours for your information. In most cases, courts will need to order online parenting classes. Once you have completed the course, then please email your certificate to cari@rinckerlaw.com so that it can be filed with the court along with a Notice of Completion.
